- Air Conditioning
- Sound System
- Signage And Painting

A brief explanation of what Majors can offer:

As Australia's Number 1 Wholesaler and specialist in the ice cream industry, we supply all the vans in WA and in fact many throughout Australia. As such, many people who are selling vans ask us to put them on our web site, as we are visited very frequently. Therefore, we offer to act as an assistance to on-sell the vans, its a free service Majors offer.

We have some that are available now and some that people are thinking of selling. We also offer a service of the following:

- We build vans for people. All over Australia, anywhere!
- If people wish to build their own vans, we offer concise and proper advice as to how, what, where, why. This is a service we offer, complimentary.
- Why? Well simple, we would rather see people build vans properly with good advice, rather than mess it up trying to re-invent the wheel! We have made all the mistakes and are happy to share!
- We manufacture machines especially for vans. Gel-Matic/Majors soft serve machine (the VAN HPCI35CP) has been developed to specifically operate under the extreme conditions that vans (and their operators) place them under.

So if you could indicate to as to how we can be of service, which type of van suits you, how we can facilitate your needs, Lets see what we can do to help.
